### **HOW TO BUILD PARTNERSHIPS TO ELIMINATE CHILD MARRIAGE**

Partnership is a voluntary collaborative agreement between two or more parties in which all participants agree to work together to achieve a common purpose or undertake a specific task and to share risks, responsibilities, resources, competencies and benefits.

It is crucial to have the organization and the person involved to have a shared vision and be clear on the purpose and the “why”.Ending child marriage requires works from all sectors and at all levels. It is important to have long term, sustainable interventions that are coordinated, well-resourced and the result of shared learning.

Among the things that could be carried out is empowerment of the “child” or “girls” involved. Get the organization involved to provide resources as well as support in terms of education, health and sustainable income. Strengthening, implementing, resourcing laws and policies on child marriage and protection are one of the crucial thing that should be taken into action.
